*We make your stay even easier and comfortable, with smart devices.*

### **LOVE THE PLANET**

*We care about the Planet's well-being, and we feel responsible toward it every day, by adopting conscious and sustainable behaviours.*

ESSENTIA

## Location

The *VOI Daniela Essentia* rises in a suggestive stretch of Salento coast, bathed by the Adriatic Sea, the ideal place for those who love relaxation, comfort, immersed in unspoiled nature. The private and equipped beach, nestled between the cliffs, can be reached by following a path that crosses the centuries-old pine forest, pervaded by the smell of resin and animated by the chirping of cicadas in the summer.

The thrill of admiring spectacular panoramas with unique and iridescent colors of the sky and the sea, enjoying relaxing walks along the coast, trying trekking and mountain biking trails, getting inebriated by the scent of resins, myrtle and the fluorescence of the Mediterranean scrub, immersing in coves with sandy bottoms with uncontaminated crystalline water between the cliffs, they will offer an exclusive opportunity for an unforgettable sensory experience and psycho-physical well-being..

12 km far from Otranto and 80 km far from Brindisi Airport.

## Beach

The resort is 1000 metres far from the splendid reserved beach, reachable through a small path which crosses the flourishing pine forest or by the free shuttle service (from 9.00 to 19.00, with a little break during lunch time). The beach is equipped with umbrellas and sunbeds (subj. to availability).

**Beach towel** free of charge and **eco tax** for the change (2,00 €); the tax will be collected and donated to eco-sustainable initiatives. Shared **powerbank station** available to Guests.

In some periods the currents cause reductions in the shoreline and beach of sand and stones (the use of shoes for access to the sea is recommended).

The resort has **147 rooms** equipped with all comforts. The decor of the rooms is inspired by soft colors, with beautiful shades of light blue that refresh the environment.
